

# DARE TO COMPARE

## WOODS GRADING SCRAPER

THE POWER TO SMOOTH, GRADE AND RECONSTRUCT

### Stronger Structure

Reinforcement bars maintain structural integrity, handling heavier material without damage to the Grading Scraper

Adjust here

Adjust here

No adjustment

### Heavier Mast Plate

Solid mast plate provides increased weight for greater downward force and constant ground contact—smoother surfaces with fewer passes eliminates washboard effect

### Taller Product

Woods has one of the tallest side structures to handle more material with little risk of overflow, keeping material where you want it

### Replaceable & Adjustable Skid Shoes

Replaceable skid shoes keep the unit looking new. Heavy skids wear longer; outside adjustment allows for quick changes during road shaping.

Watch the Woods Grading Scraper in action on YouTube or find us on Facebook, Twitter or Flickr.

# DARE TO COMPARE

## Easy, Strong Scarifiers

Shank pocket maintains toolbar strength
